

CRYSTAL LABELS

FREE printable to help you get crystal organized!

OVERVIEW AND DIRECTIONS

Thank you for downloading the Crystal Labels! These labels were created to help you keep your crystals and minerals, labeled, and organized. Please keep in mind that there are over 4000 minerals out there. I chose some of the more popular ones to create labels for. Over 250 labels are included in this downloadable booklet! This comes to you as a Microsoft Word document so that you can add your own, delete, change the font, colors, style, and so on. Make it your own! There's also a full blank page for you to create new labels as well.

To use these labels, print the following pages onto standard mailing label paper so that you can print, peel, and stick! The label size is 1" x 2 5/8 and comes with 30 labels on a sheet. If you don't have labels, fear not. Simply print onto standard letter sized-paper, cut out your labels, and glue them or place them however you wish. I print onto mailing labels and stick onto boxes to keep my crystal closet organized. You can place the labels in individual boxes, bags, or under large crystals that you have on display. Never mix up your crystals again!

TERMS OF USE

These crystal labels are for your personal use and entertainment. Please read the disclaimer at the end of this manual. Please do not share copies of these labels. I appreciate that you tell others where they can get their very own copy. ©2019 ©2024
